

XXIII ISR Congress - July 11-15, 2022

ISR Centenary Congress Newsletter

Unlike previous pandemics, which have been restricted to just one or two geographical regions, COVID-19 has impacted us all globally. It goes without saying that 2020 brought about many losses—of life, work, income, even relationships. Yet, it has also brought benefits. We have been forced to think in radically different ways, to see life through new lenses and adapt in ways we previously thought impossible. In short, I believe it is making us stronger.

It would be easy to make COVID-19 an excuse for opting out of attending the 2022 ISR Centenary Congress, but it is at such a time as this that we need to meet and participate together. Please come and present a paper, or take part in discussions, share your experiences and enhance the value of the Congress by your presence. Don't pass over this unique opportunity! Let's work together to make this the most memorable and meaningful Congress that the ISR has held. Please see the following important dates.

I am looking forward to meeting you in person to celebrate the 100th anniversary of Herman Rorschach's cards and his Psychodiagnostics and wish you and your family a happy New Year 2021!

Sincerely,
XXIII ISR Centenary Congress Co-President,
Noriko Nakamura

Reminding about the case study webinars for the Newsletter January 2021

In between July 2021 and June 2022, the ISR will offer on-line panel discussions of 2 kinds of Rorschach protocols:

Historical cases (e.g. the Wolf Man of S. Freud, a protocol from the Nuremberg trial, a protocol analysed by Herman Rorschach) and recent cases of interest (e.g. The writer Mishima, the serial killer Theodore Bundy, other in preparation).

The format is a two-hour webinar broken down as follows:

- one hour presentation of the case/protocol by the leader of the session
- half an hour discussion between panellists
- half an hour addressing questions and comments by the audience.

The protocols will be sent to the registered participants in advance.

The discussion with the audience will be moderated so that only relevant questions and comments will be forwarded to the panellists.

Registration to the webinars is mandatory and participants who will have registered for the 2022 Congress (early bird registration) will benefit of a reduced fee. The webinars will be recorded and available later for a higher fee.

Registration to the webinars will open on the website at the time registration to the congress will open.

Please contact [Fernando Silberstein](#) or [Anne Andronikof](#) for suggestions or questions.
